SUMMARY

React.js Developer with 3+ years building scalable web applications using React, Redux, and TypeScript. Reduced load times by 40% and improved user engagement through performance optimization and responsive design. Experienced in modular component architecture, Agile/Scrum delivery, and CI/CD-driven cross-team collaboration.

TECHNICAL SKILLS

- **Frontend:** React.js, Redux, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, GraphQL, WebSockets
- **Databases:** MongoDB, PostgreSQL, Redis, Prisma ORM
- **Tools & DevOps:** Git, GitHub, Docker, Kubernetes, AWS (EC2, S3), CI/CD
- **Methodologies & Testing:** Agile, Scrum, Jest, Vitest, Unit Testing, Integration Testing
- **Others:** Kafka, Responsive Design, shadcn/ui, Cross-browser Compatibility

WORK EXPERIENCE

ACCENTURE (Global IT Consulting & Services)

Associate Software Engineer

Bhubaneswar

July 2023 – Present

- Engineered a HIPAA-compliant multi-role SPA (React 18 + TypeScript) with SSO authentication, RBAC, and secure token handling across patient, clinician, and admin workflows.
- Architected hybrid state management using React Query (caching, optimistic updates) and Redux Toolkit + Zustand, reducing redundant API calls by 45% and improving Time to Interactive by 35%.
- Built 20+ reusable, accessible TypeScript components with Tailwind CSS and strict type safety, achieving 98+ Lighthouse scores, full cross-browser compatibility across 5+ browsers, and reducing production bugs by 30%.
- Deployed containerized frontend via CI/CD pipelines with automated Jest/Vitest test gates and maintained 80%+ unit/integration test coverage, cutting release cycles by 40% with zero-downtime rollouts.
- Integrated real-time data modules via WebSocket and RESTful APIs, streamlining complex workflows across 3 dashboards and reducing manual operations by 40%.
- Improved backend performance via Redis caching and database query indexing, achieving 50% faster API response times; delivered features 10% ahead of sprint schedule in an Agile/Scrum framework.

PERSONAL PROJECTS

COURSE PLATFORM LMS WITH ADMIN DASHBOARD [\[Code\]](#)

Mar 2025

- Built a CMS-driven LMS with Next.js + Sanity, enabling non-developers to publish and manage courses 80% faster through a headless content pipeline with GROQ queries and ISR/SSR optimization.
- Secured the platform with Clerk authentication + RBAC, enforcing protected routes via middleware; improved Lighthouse score by 25% through lazy loading and modular component architecture.

FILE-STORE APP WITH REAL-TIME FILE SYNC [\[Code\]](#)

Aug 2024

- Developed a real-time file management app using Convex reactive queries and Clerk webhooks, enabling instant cross-user sync with secure RBAC enforced via internal mutations and schema-level rules.
- Automated stale file cleanup with Convex Blob Storage + cron jobs, maintaining storage usage under 80% and reducing manual overhead.

EDUCATION

Ravenshaw University, Odisha, India

Bachelor of Science in Information Technology Management (B.Sc. ITM)

CGPA: 8.86/10

Graduated: 2023

ADDITIONAL

Certifications & Training:

- Full Stack Web Development — 100xDevs (Harkirat Singh) | MERN Stack, DevOps, System Design [\[Verify Certificate\]](#)
- Meta Front-End Developer - [\[Verify Certificate\]](#)
- Programming with JavaScript - [\[Verify Certificate\]](#)
